SUMMARY OF QUALIFICATIONS

I am a motivated Software Developer with a strong interest in frontend engineering and building modern, responsive, and user-friendly web applications. I enjoy turning ideas into practical solutions, learning new technologies, and contributing to meaningful products. I aim to grow as a full-stack developer, refine my skills through real-world challenges, and continue developing as a well-rounded professional.

EDUCATION

Patan Multiple Campus

Bachelor's in Information and Technology, TU

Mar.2022 - Apr.2026

TECHNICAL SKILLS

- **Programming Languages:** C, Java, JavaScript, TypeScript, Python
- **Backend:** Node.js, Express.js, REST API Development
- **Frontend:** React.js, Next.js, Tailwind CSS, Shadcn UI Components
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Testing & QA:** Selenium, API Testing, Automation Testing
- **Tools:** Git, GitHub, Jira, Postman

WORK EXPERIENCE

Frontend Developer - Proshore Nepal Pvt. Ltd.

Nov 2025 – Feb 2026

Internship [Certificate](#)

- Contributed to the development of a poultry survey web application using Next.js, React, and TypeScript, working closely with cross-functional teams.
- Built dynamic and responsive frontend components, improving user experience and data entry efficiency.
- Developed interactive features such as Image Capture, editable tables, Excel export, and validation workflows to enhance data accuracy and usability.
- Integrated REST APIs to enable seamless data communication between frontend and backend systems.
- Collaborated with backend and QA teams using Jira to ensure smooth development, testing, and deployment processes.
- Followed clean code practices, used Git/GitHub for version control, and participated in team discussions and reviews.

PROJECT EXPERIENCE

Smart Product Price Tracker [GitHub](#)

[Live Demo](#)

- Built a product price tracker that monitors prices across major e-commerce platforms.
- Enabled automated daily price checks, interactive charts, and email alerts for price drops.
- Integrated Google OAuth and secure backend authentication with Row-Level Security (RLS) for user-specific data.
- **Tech Stack:** Next.js, Firecrawl, Supabase, Tailwind CSS, Shadcn/ui, Recharts

AI Resume Analyzer [GitHub](#)

[Live Demo](#)

- Developed an AI-powered resume analysis platform that evaluates resumes against job descriptions with ATS-style feedback.
- Implemented secure authentication and resume management for personalized user analysis.
- Provided intelligent recommendations for keyword optimization, formatting, and job compatibility.
- **Tech Stack:** Next.js, Firecrawl, Supabase, Tailwind CSS, Shadcn/UI, Recharts

URL Shortener [GitHub](#)

[Live Demo](#)

- Developed a full-stack URL shortening platform that enables users to create, manage, and customize shortened links.
- Implemented secure authentication, QR code generation, and a searchable dashboard for efficient link management.
- Built analytics features to track clicks and device types with automated redirect handling.
- **Tech Stack:** React, Vite, Supabase, Tailwind CSS, Shadcn UI, React Router DOM, Recharts

Assignment Management System

[GitHub](#)

- Developed and integrated REST APIs with a React frontend, enabling seamless data flow and user interactions.
- Implemented JWT-based authentication with role-based access control for students, teachers, and administrators.
- Contributed to plagiarism detection using TF-IDF and cosine similarity and developed UI components for dashboards, submissions, and notifications.
- **Tech Stack:** React.js, Node.js, Express.js, Tailwind CSS, MongoDB

Employee Management System

[GitHub](#)

- Developed a Java-based Employee Management System with a Swing GUI for efficient employee record management.
- Implemented CRUD operations using MySQL and JDBC, including search and data display functionality.
- **Tech Stack:** Java, Swing, MySQL

CERTIFICATIONS & TRAINING

Proshore Bootcamp - [Certificate](#)

SQL (Basic) - [Certificate](#)

Python (Basic) - [Certificate](#)

API Test Automation with Postman - [Certificate](#)
